

# SOFFIT VENT

## Overview

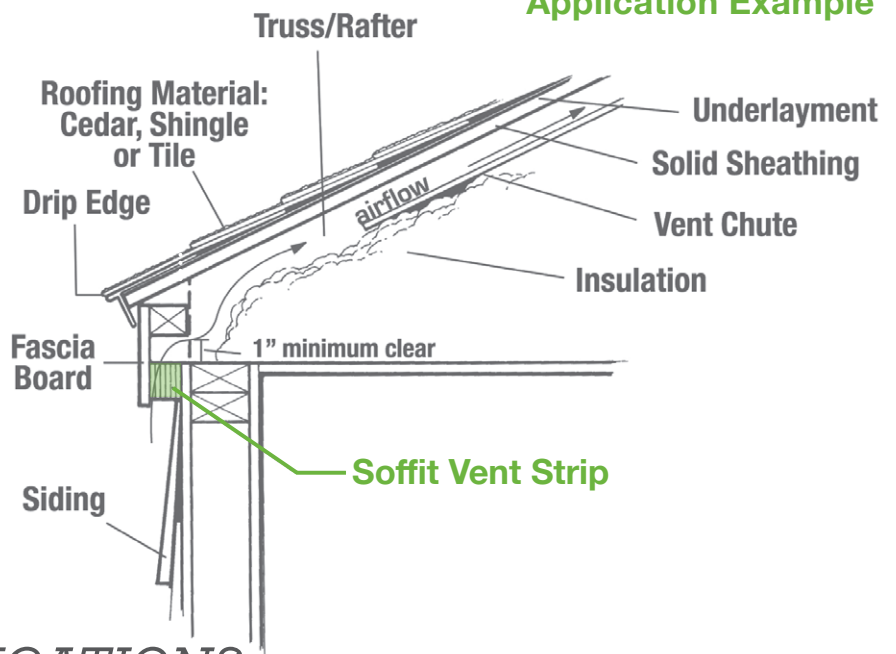

Quarrix Soffit Vents provide even and continuous air intake at the eave. Traditional soffit vents segment air intake and create “zonal” ventilation. Having continuous air flow along your entire soffit can help create a balanced ventilation system for your home.

## Continuous Intake for a Balanced Ventilation System

- Great for new construction or retro-fit
- Gun-nailable for quick and easy installation
- Highly rigid design for maximum durability
- Available in 4’ sections and 2 color options
- 9.5” of NFA per lineal foot

## Application Example

## SOFFIT VENT SPECIFICATIONS

| Part # | Color | Length | Width | Height | Certified N.F.A. | Warranty                | Material     |
|--------|-------|--------|-------|--------|------------------|-------------------------|--------------|
| 20460  | White | 4'     | 1"    | 1 1/4" | 9.5"             | Lifetime Manufacturer's | HDPE Plastic |
| 20470  | Black |        |       |        |                  |                         |              |
