

TILE BATTENS

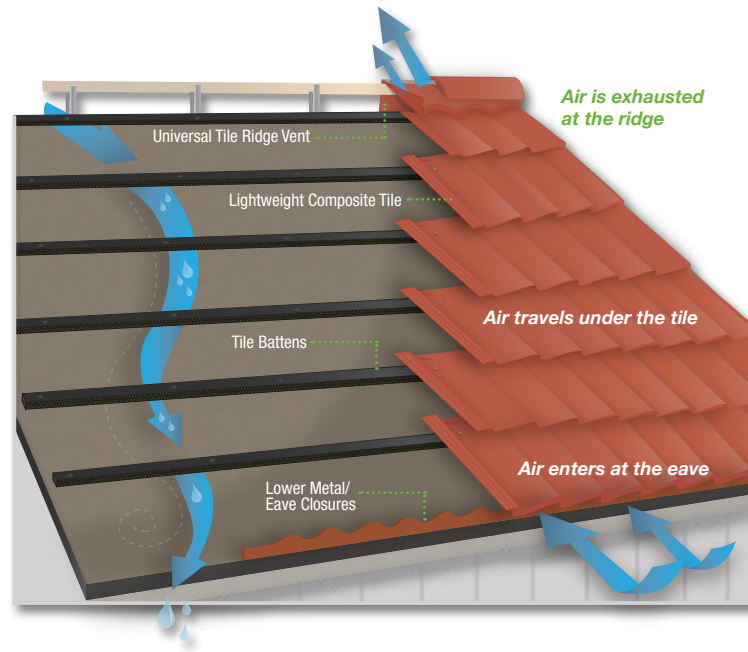

Overview

Quarrix Tile Battens are made of durable HDPE corrugated plastic, providing long-term superior performance for composite tile, clay, concrete and wood applications. Tile Battens not only create proper water drainage, but also allow air to move freely, keeping the roof deck properly ventilated.

Quarrix Tile Batten Benefits

- Proven Performance**
 Highly rigid design dimensionally die cut for identical pieces. The plastic design creates a gasket effect which eliminates leaking around fasteners.
- Unmatched Versatility**
 Eliminates the need for lath and counter batten system.
- System Solution**
 Works with composite tile to create a drainage plane and allows continuous airflow underneath the roof.
- Industry Standard**
 Quarrix is the leading manufacturer of corrugated HDPE ventilation products.

TILE BATTENS SPECIFICATIONS

Part #	Length	Width	Height	Certified NFA	Warranty	Material
60917	8' Sections (fold-out) (12 per Bundle)	1 1/2"	3/4" (low) Profile	5.6"	Lifetime Manufacturer's	HDPE Plastic
