

UNIVERSAL TILE RIDGE VENT

Overview

Quarrix all-in-one Universal Tile Ridge Vent combines ridge ventilation and weather blocking into one product. It creates ventilation and airflow under the tile and helps achieve a cool roof system. The closure system attaches to any tile or metal roof with a simple peel-off butyl adhesive. Made of durable UV-resistant aluminum.

Quarrix Universal Tile Ridge Vent Benefits

- Easy to Install**
 Peel-off butyl adhesive makes installation fast.
- Architectural Appeal**
 Low profile and coordinating colors make it virtually disappear into the roof.
- Proven Performance**
 Can flex and contour to provide an excellent seal against water intrusion.
- Complete System**

Quarrix created the System Advantage™, a line of high quality roofing components that combat water drainage and poor air circulation in water shedding tile roofs. This full line of roofing accessories include: Tile Fasteners, Tile Battens, Universal Tile Flashing, Universal Tile Ridge Vent and more.
